Every night I lie awake thinking to myself  
How my life is controlled by someone else  
This is not how I want to live  
Not how I want to be  
Pass it off, things will change  
Time will tell  
I wish I could just say "farewell"  
Cause that ain't happening  
I'm still here acting

So take what you want and leave  
Then return with no sympathy  
There's no way I'll make it out alive  
Don't ask questions, it's too hard to say

You've ruined every second of my life  
Get off my back

Obviously, you can't take a hint  
When someone wants you to shut up  
and leave them be for their sense of security  
There is nothing I hate more than your eyes in mine  
While your mouth is running through my ears

Your eyes stunned me upon first sight  
and now bury me in the ground

Fuck you.
