Move on (goodbye)
Move on
On and on
Anytime
You gotta move on, move on
You gotta move on, move on

Ain't no holiday
Wonder why I pray
Ghetto children sing
Heaven still don't bring
Don't give up the faith
The sky will shine your way
And though it gets so hard
That you think you can't take

Believe in yourself
You can make it there moving
Keep moving
Hold it in your arms
Just because you can't love me
Can't love me
I still see your face
Staring back at me
Dreaming
I'm dreaming
Every single day
I will always
Keep climbing
Keep climbing

Time go slow
Then go fast
Stay, let go, I'm free at last
My head blow
I ain't gettin' no sleep
Waiting for my brother
Saturday gettin' released
See your face
It won't leave my heart breaks
I can't breathe

Left flowers laying on your grave stone
They're your favorite color
And I'm still trying to move on

Move on
Move on
On and on
On and on
Gotta move on, move on
Gotta move on, move on
Gotta stay strong, move on
Gotta move on, move on

Ain't got time to waste
This could be my last day
Heard an angel say
That she would keep me safe
So I will walk my path
Can't forget my past
Spread your wings and fly
You belong in the sky

Believe in yourself
You can make it there moving
Keep moving
Hold it in your arms
Just because you can't love me
Can't love me
I still see your face
Staring back at me
Dreaming
I'm dreaming
Every single day
I will always
Keep climbing
Keep climbing

Time go slow
Then go fast
Stay, let go, I'm free at last
My head blow
I ain't gettin' no sleep
Waiting for my brother
Saturday gettin' released
See your face
It won't leave my heart breaks
I can't breathe
Left flowers laying on your grave stone
They're your favorite color
And I'm still trying to move on
Move on

Move on
On and on
On and on
Gotta move on, move on
Gotta move on, move on
You gotta stay strong, move on
You gotta move on, move on

Let it shine so bright
Let it shine so bright
Let it shine so bright
Let it shine
Let it shine so bright

Time go slow
Then go fast
Stay, let go, I'm free at last
My head blow
I ain't gettin' no sleep
Waiting for my brother
Saturday gettin' released
See your face
It won't leave my heart breaks
I can't breathe
Left flowers laying on your grave stone
They're your favorite color
And I'm still trying to move on

Time go slow
Then go fast
Stay, let go, I'm free at last
My head blow
I ain't gettin' no sleep
Waiting for my brother
Saturday gettin' released
See your face
It won't leave my heart breaks
I can't breathe
Left flowers laying on your grave stone
They're your favorite color
And I'm still trying to move on
