My secret dreamworld, it falls apart  
A silent sorrow gets hold, is touching my heart  
My inspiration, your genius art  
Our strange relation has lost all it's charm

Love and passion are dead and gone  
You've been my idol, the chosen one  
Can I be free when I'm living on?

In the still of the night  
Dark obsession inside  
It's the way to my last paradise  
In the still of the night  
My Dark obsession ignites  
My oasis, my paradise

Always faithful, beyond all time  
A strong desire was burning inside  
My love is endless, it never dies

You gave a meaning to my curious life  
You have denied me, you turned away

In the still of the night  
Dark obsession inside  
It's the way to my last paradise  
In the still of the night  
My Dark obsession ignites  
My oasis, my paradise

In the still of the night  
Dark obsession inside  
In the still of the night  
Dark obsession inside  
In the still of the night  
Dark obsession ignites

The time has come to take me home  
Show me the way and lead me home
