The first moment before the first touch  
We know the longing  
We have to hold each other  
I will drown you in love  
must suffocate your needs  
Now we're healed  
we have our own language

I feel wonderful  
I could skydive from the moon  
Sail an ocean on my fingertips  
When the wind screams my name

Take his hand and be free  
To run run run to you

I feel wonderful

The first moment before the first touch  
We knew the longing  
We have to hold each other  
I will drown you in love  
Must suffocate your needs  
Now we're healed  
We have our own language  
Collect your words  
I have them when you're gone  
I silently smile  
Even miss you in my sleep

No rush no loss no lies  
This journey is our love  
You're my hero  
From heaven did you call

I feel wonderful  
I could skydive from the moon  
Sail an ocean on my fingertips  
When the wind screams my name

Take his hand and be free  
To run run run to you

I feel wonderful  
I could skydive from the moon  
Sail an ocean on my fingertips  
When the wind screams my name

Take his hand and be free  
To run run run to you
