"Best I've Ever Had"

Visit "[Best I've Ever Had](#)" on MotoLyrics.com

Strumming on a six string
Lazing the time away
Singing to the setting sun
Thank you for the day

All we have is all we need
And all I want is you tonight

This place
No matter how far I roam
Is the best I've ever known
These times
They're the best I've ever had
They're the best I've ever...
Even though the moving on can make you sad
You're the best I've ever had
Best I've ever had...

It's the way that you feel, can't stop it
People try to hate on us, but no, they can't knock it
Everybody pump it to the level, let's rock it
We're good to go whenever so we're always so
incredible

So infectious got everybody smiling
Baby, from the hoodies to your toes, superstyling
Girl, you're superstyling

Strumming on a six string
Lazing the time away
Singing to the setting sun
Thank you for the day

All we have is all we need
And all I want is you tonight
All we have is all we need
And all I want is you tonight

This place
No matter how far I roam
Is the best I've ever known

These times
They're the best I've ever had
They're the best I've ever...
Even though the moving on can make you sad
You're the best I've ever had
Best I've ever had...

It's the way that you feel, can't stop it
People try to hate on us, but no, they can't knock it
Everybody pump it to the level, let's rock it
We're good to go whenever so we're always so
incredible

So infectious got everybody smiling
Baby, from the hoodies to your toes, superstyling
Yeah yeah
