"Sing"

I just wanna play
I just wanna play my music
There's something in the sound
That I've found
And you know I'm not afraid to use it
I just wanna glide
I'm gonna spin to the city tonight
Hear a million heartbeats
So get on your get on your feet
And dance to the rythm of life

Oh,

I wanna sing
Sing something new
Bring us together
It's up to you
You gotta make it last forever and ever

Sing something true
There's someone else who matters
Got to believe
My soul is gonna shine forever and ever

I just wanna sing
I just wanna sing my song
Shade the melody and sound
That will make the world around
Like after and dawn

Don't ever let your life
Fade out
Be proud
And sing

Oh,

I wanna sing
Sing something new
Bring us together
It's up to you
You gotta make it last forever and

Sing,

Sing something new
There's someone else who matters
It's up to you
You gotta make it last forever
You gotta make it last forever
You gotta make it last forever and ever
