Soundclash,
Prepare to be frequelized!

Day 1,
Simmering the breakdown.
Day 2,
Suffering a meltdown.
Day 3,
And I cant' see straight at all, no, no...

That noise,
Coming like a ringtone.
It is filling up my ear-zone.
I can't, stay out the way too long.

They'll gaze inside of your mind everynight,
Just to see if you're dreaming at all.
And then while you sleep, they will crawl,
They will creep and then your brain will dissolve.

The sadness, the madness, the mis-happening
madness,
The rules that show that we can do this,
Oh, they don't have it,
Look, they don't have it,
So hope they don't have it at all.

Hey brother,
Tell me that you love me,
You got to stop yourself from losing control.

Hey sister,
We're really gonna miss ya,
It's your time to shine and light up the show.

When all the while,
We're watching you and seeing all the things they're
gonna do...
They'll make a monster of you!
They'll make a monster of you!

Midnight,
Creeps come a crawling.

Hold tight,
And everybody's falling
It's my sound knocking you off your feet.

Make time,
Never waste a minute.

One night,
Everybody's in it.
They've tried,
They'll never hold us down.

They'll gaze inside of your mind everynight,
Just to see if you're dreaming at all.
And then while you sleep, they will crawl,
They will creep and then your brain will dissolve.

Hey brother,
Tell me that you love me,
You got to stop yourself from losing control.

Hey sister,
We're really gonna miss ya,
It's your time to shine and light up the show.

When all the while,
We're watching you and seeing all the things they're
gonna do...
They'll make a monster of you!
They'll make a monster of you!
They'll make a monster of you!
They'll make a monster of you!
They'll make a monster of you!
