I was a soul with a shake *****
i was the soul but you wouldn't use it

i was right
that your wrong
well alright
i could be wrong

i was a drug take a drink and i lose it
i had a girl but i knew i would lose her

well alright

it's all wrong
well okay
it's all gone

drinking isn't fucking up my life
i drink because my life's fucked up
there's nothing to believe in
there's no space to live in
i got no religion
well who needs religion anyway
