Well i've been running from a to b
no more hookers or lsd
if i'm wrong
is it right
no more winding myself up tight
we're okay
we're alright
no more winding myself up tight

well i've had money and drugs and fame
i've pissed my money all down the drain
i've pissed all day
i've pissed all night
i've pissed my demons well that's alright

i've pissed day

and all night
i've pissed my demons well that's alright

i gave away the good times
in the place of good times i got bad
well i got bad
well i got bad
well i got bad

what goes around comes around
well i got bad
what goes around comes around
well i got bad
what goes around comes around
well i got bad
what goes around comes around
