[Descendents cover song]

Don't you think it's time i let you know don't you think i
should before you go i'm not gonna let you get away
'cause i want to fuck

You night and day i'm a pervert i like to go out on dates
see a movie, communicate we'll go home and have
some fun i'll tell

You, sure you're the only one then when i leave your
house i smell of sex then i know i'm a pervert, because
i like it then i

Know i'm a pervert, because i want it want it all of the
time don't you wonder sometimes what i want don't you
sometimes

Think i just want your - cunt i'd hate to think that
romance is just a pose but all i want to do is rip off your
clothes i'm a

Pervert i like to hold you in my arms you know i wouldn't
do you harm i never take advantage, in my book that's
a sin but

Somehow i find myself caressing your skin then there's
one word on my mind and that word is - fuck
