"Wish Me Well"

I've got to be me baby and you gotta be you
Something isn't right but i know i love you
I only want what's best i don't know Is this
Some kind of test. Yeah and you're failing
All we do is bicker
Say goodbye Kiss my ass I hope you die
Wish me well You can go to hell
We were so different a short time ago Love
Is suppose to make us happy supposed to make us
grow
But i just wanna punch you in the face
I love you i guess needed the space
Oh well another time and another place
Say goodbye Kiss my ass I hope you die
Wish me well You can go to hell
