### "We Could Be Friends"

Visit "[We Could Be Friends](#)" on MotoLyrics.com

I am convinced  
that we could be friends  
We have several interests in common  
In common

And I am convinced  
that we have been friends  
Were you a Tahitian  
grain of sand  
In a past life?

Please don't put your face into your hands  
we could be friends  
Please don't put your face into your hands  
we could be friends

I am convinced  
that we should be friends  
We compare our hearts  
to things that fly  
But cannot land

Please don't put your face into your hands  
we could be friends  
Please don't put your face into your hands  
we could be friends  
Please don't put your face into your hands  
we could be friends  
Please don't put your face into your hands  
we could be friends  
Please don't put your face into your hands  
we could be friends  
I can count the ways on my two hands  
We could be friends
