baby give me a chance
may I have this dance
don't make it the last
make it the first
pratically loved, always hated
by jealous ones
just understand where I'm comin' from

I was the one chosen
I got my own destiny
I need a route to find my life
I just hope my life is 4 u
I just need you next to me
or atleast for now 'til then listen

Chorus:2x
when you look into my eyes
do you see my pain
our love is blind
still it can't see through anything

I can't rap I can't think
I'm a ghost in your mind
I had a little 2 much 2 drink
when I'm not with you
I'm with another, what
you thought I was goin' 2
be stuck on you
I was but you let go
now we back together
and It just isn't the same
this love has changed

chorus:2x
when you look in my eyes
do you see my pain
our love is blind
still can't see through anything
