uh yo yo, let monk cast microscopic allusions to da
confuzed minds,

tryin to ignore but dont deny my existence
before i make your crew own with persistence,
unknown, unraveling to tha strategies
which niggas cant fade me
equiped with deadly machinery
that'll cause bitches to get blast from the front
while me and my outlaw homie rollin a fatass blunt
which the term is not yet defined
tryin to tame this track to rewind
if ya want some of this get behind enemy lines
tryin to start shit, bust out my forty-five clip
makin sure you scream like a cunt face bitch
fo sho, peach fuzz, optimo while bustin mad free flow's
to let viewers know that swoon takin niggas down slow
motionless sound, vibrant, bringin ya to tha lost and
found,
cuz i be bustin out hard like dry concrete, blaze chronic
is swisher sweets
as i hit the highland streets that'll sweep ya off of ya
feet!
