I.

We've been together so long  
and you know that I just can't pretend.  
I think it's time to take this thing a little further-  
be more than just friends.

REFRAIN 1:

Don't you know that when I'm alone,  
girl, I can't help but notice  
it's you who's always on my mind.  
You might say you're afraid  
but girl we've got it made.  
There's just no reason not to try.

CHORUS

So just take a little time to think  
about the way we've been.  
You know it comes so naturally.  
You know I've never ever felt this way before  
'bout anybody else  
and you say -- feel the same way for me  
So just take a little time to think about  
how things could be  
so much more and girl I believe  
that if you take a little time to think about it -  
I know that you will see.  
That I'm for you and you're for me.

II.

I can't explain how I feel when you're near me.  
I can't even start.  
It's just the way that we fit.  
Now I've got to admit,  
you've completely taken over my heart.

REFRAIN 2:

And when I'm down and I'm lonely  
Girl, you are the only one  
who keeps me going on  
And this feeling inside  
oh girl, i can't deny it.

I really think that we belong.
