I was alone not long ago

Without a love to call my own

I was afraid and thought

It wasn't meant for me

I didn't need anybody else

That was what I would tell myself

And I believe that then

Was how it would be

Refrain 1:

I used to think that I was fine

Oh, that I was doing ok

I didn't know that I was blind

I just went on along my way

I didn't know what I was missing

'Til I felt your tender lips

Kissing my fears away

I'm so glad you're here today

Chorus:

I never had somebody I could lean on

I never had a shoulder I could cry on

'Til I found you babe, 'til I found you

And I never had somebody I would think about

I never had someone I couldn't do without

'Til I found you babe, 'til I found you
I had been badly hurt before

Ever since then I would ignore

Any chance for love

I thought it was a lie

I learned to rely upon myself

And I thought that I was doin' well

Until you came

With something I just can't deny
Refrain 2:

I used to think that I was fine, oh

That I was doing alright

I would go on and do my things

Every day and every night

I didn't know what I was missing

'Til I felt you tender love

Fillin' me up inside

I love you with all my might

(Repeat Chorus)

Woh...

(Repeat Chorus)

And I never knew how good a love could feel

'Til I found you babe

Woh...

And I never thought a love could be so real

'Til I found you
