I.

I've been with you boy for years is quite a while getting
to sensual is really not my
style you know i love you and i like it just like this
sometimes i feel like giving you more than just a kiss
but baby it's wrong baby its not my kind of game if i
give it to you now our love will never be the same
it wont be long we gotta play our love just right i know u
know the time will come
but baby for tonight

CHORUS:

Let's take it slow so slow anywhere you wanna go baby
for you i'll lay it on the lights
you oughtta know boy i aint got no where to go give it
to you only to you we gotta take it real slow

II.

me all the natural desire
i know that you feel it to i know you wanna flow dreamin
about it and the fire starts to grow.
Baby its wrong baby its not my kind of game if i give it
to you know our love
will never be the same it wont be long we gotta play our
love just right i know
you know the time will come but baby for tonight
REPEAT CHORUS

Bridge:

And know tommorow it will still be you and me savin it
all for you especially
trusting it baby when i say this to you if we wait a little
longer our love will be forever true.
