"Push Up"

Visit "[Push Up](#)" on MotoLyrics.com

I think I saw your body 'fore I saw your face
Kinda moves you made were rockin the place
Then your favourite song came on - the one you love
You came over to me, looked me in the eyes and said
push up

You had your hands all over my body tonight
You didn't care about respectability
People starin cause you really made a scene
It must have looked like we were doin it for real
(you said)

Where I come from we don't play around
And when its time to party we know how to get down
And where we're goin baby you don't have to worry
'bout a thing
Take my hand
Move your body up and down
And...

[Chorus]
Push up
Your body, your body next to mine
Push up
I gotta make that sexy booty mine
Push up
And shake it, baby shake that ass
Push up
I love it when you feel like gettin nasty

(keyboard)

Just like a drug you rock with my reality
You were a figment of my sexuality
I know you're capable of blowin out my mind
So excuse me when you talk to me i seem preoccupied

Cause where I come from we don't play around

And when its time to party we know how to get down
And where we're goin baby you don't have to worry
'bout a thing

Take my hand
Move your body up and down
And...

[Chorus]
Push up
your body, your body next to mine
Push up
I gotta make that sexy booty mine
Push up
and shake it, baby shake that ass
Push up
I love it when you feel like gettin nasty

(Nasty, nasty)

Where I come from uh no
We don't play around (no, no)
And where I come from yeah...
We get down get down so
Move your body up and down
And...

[Chorus]
Push up
your body your body next to mine
Push up
Gotta make that sexy booty mine
Push up
and shake it baby shake that ass
Push up
I love it when you feel like gettin nasty

[Chorus]
Push up
your body your body next to mine
Push up
Gotta make that sexy booty mine
Push up
and shake it baby shake that ass
Push up
I love it when you feel like gettin nasty
