Frontload (the hidden variable micro-awesomeness mix)

got me feeling incredible  
got control over me  
you got me feeling insatiable  
feel the need to be seen  
you got me feeling incredible  
got control over me  
got me feeling insatiable  
I just need to be seen  
you got me feeling incredible  
got control over me (2x)

take me to your party  
take me through the ice and the streets  
take me to the awesomeness  
and this is the night we'll be free  
take my hand I'll follow  
take me anywhere that you please  
take me 'till tomorrow  
and this is the night we'll be free

something random is happening  
I hope that I am prepared  
something's suddenly different  
there's nothing left to compare  
something random is happening  
future perfect prepare  
something's suddenly different  
there's nothing left to compare  
something random is happening  
I hope that I am prepared  
I hope that we are prepared

take me to your party  
take me through the ice and the streets  
take me to the awesomeness  
and this is the night we'll be free  
take me to the city  
let me hear the crowds and the screams

all the flashes all that noise  
and this is the night we'll be free

take me to your party  
(take me to your party)  
take me through the ice and the streets  
(take me through the ice and the streets)  
take me to the awesomeness  
(take me to the awesomeness)  
and this is the night we'll be free  
(and this is the night we'll be free)  
take my hand I'll follow  
(take my hand I'll follow)  
take me anywhere that you please  
(take me anywhere that you please)  
take me 'till tomorrow  
(take me 'till tomorrow)  
and this is the night we'll be free  
take me to the city

let me hear the crowds and the screams

all the flashes all that noise  
(all the flashes all that noise)  
and this is the night we'll be free  
(and this is the night we'll be free)  
take me to the cosmos  
(take me to the cosmos)  
take me to the place on the streets  
(take me to the place on the streets)  
dreaming of this moment  
(dreaming of this moment)  
and this is the night we'll be free
