### "Hot air balloons"

we're underneath the rising sun  
we open arms to everyone  
the sky is ours, we must prepare  
hot air balloons are everywhere  
we know our goal, we must descent  
so come and join us now, my friend  
the sky is ours filled, we must prepare  
hot air balloons are everywhere  
do not be scared (3x)

adventuring a far off place  
the morning comes, it's time to race  
the sky is ours, we must prepare  
hot air balloons are everywhere  
all up and down incisively  
we're numbering infinity  
the sky is filled, we must prepare  
hot air balloons are everywhere  
do not be scared (3x)  
okay, be scared
