I surrender, yes I do
great pretender, nothing new
we're out in the open, we're out in the open
nature's splendor, lovely view
love me tender, love debut
I always fall through, I fall forever

go on, go on, I'll slip right down
I'll fall off the edge and make no sound
when I, when I am finally found
they'll say it was natural causes
I'll say it was natural causes too

I surrender, yes I do
end of era, start anew
I see a pattern, I see a pattern
gender bender, boy in blue
return to sender, broke in two
the avalance is, the avalance is soon

go on, go on, I'll slip right down
I'll fall off the edge and make no sound
when I, when I should tell on you
they'll say it was natural causes
I'll say it was natural causes too

go on, go on
I'll slip right down
I'll fall off the edge and make no sound
when I, when I am found
should tell on you
they'll say it was natural causes
I'll say it was natural causes too
