Frozen fingers on a coco wheel  
Hot emotions that you can't conceal  
Stay on the freeway  
Take the chance of your life

Screamin' sirens cryin' in your ear  
Flashin' red lights burnin' in tthe mirror  
Come on step on it  
Get them out of your sight

Can't be too cool, when you're dancin' with danger  
Don't play the fool, when you're dancin' with danger

Runnin' lonely and your out of steam  
Silent madness when you try to speak  
Shattered pictures  
Of a face you once knew

Can't be too cool, when you're dancin' with danger  
Don't play the fool, when you're dancin' with danger

Can't be too cool, when you're dancin' with danger  
Don't play the fool, when you're dancin' with danger
