

## **Bouncing Souls "Night on Earth"**

Visit "[Night on Earth](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Passed some time on the stoop  
On the block were we used to sit  
I thought about it all too much  
I thought so hard I couldn't see  
Pete rode by on his Hutch

Passed some time on the stoop  
On the block were we used to sit  
I looked down and tied my shoes  
I thought about it all too much  
I looked up and then I knew

I guess these things  
Were meant to be  
And there's no use fighting  
What's in me

Night on earth  
Night on earth

Passed some time walking around  
Looking for something to be  
When I stopped to look around  
All the music was different to me

All these places we used to go  
When I loved you I didn't see  
I'll miss you but now I'll know  
Better next time because I found me

I guess these things  
Were meant to be  
And there's no use fighting  
What's in me

Night on earth  
Night on earth
