We walk the halls of life  
See the things what we wanna see  
Be what we wanna be  
Wherever I go I search for me

Now it's all we have  
Now it's all we'll ever have  
To live our lives  
Now it's Everything

And when i get inside my head  
These are the new things that i find  
That was so much i couldn't see  
when i live outside my mind

And i love everythings i see  
And everythings i'll never be  
will be  
Now it's all we have  
Now it's all we'll ever have  
To live our lives  
Now it's Everything

Now it's Everything  
Now it's Everything  
Now it's Everything

Now it's Everything!!!
