Gotta stop now
You get me so down
This feeling still in everyone
It's cheating ourself
Gotta stop now
When you do it all this way
I've always said:
it's easy that way
It's easy to manipulate
And take me to war
Squirrel it away
When you wake up cold and alive

You go

[CHORUS]

Butt out
Thought I had it down now
This is what I asked for
Get out
Go out
Get down now
But I'm not you
So let it go

I hurried again
To see if you grin
A second look is all I ask for
Nothing's wrong
when nothing's so bad
This offence is all you live for
You're so down
You make me slow down
When I forgot you're just that way
You thought you're so bad
Turn me away
I know why, cuz when they wanted
Pictures of you
Guy in his van
Took you to hell
And was all the rage and

I was let down
Cuz people go down
Feel myself for more of the same

And now

Butt out
Thought I had it down now
This is what I asked for
Get out
Go out
Get down now
But I'm not you
So let it go

Butt out
Thought I had it down now
This is what I asked for
Get out
Go out
Get down now
But I'm not you
So let it go

[Sung over Chorus]

And I waited till today to tell you gather 'round to get it
all
And I waited so alone with nothin you get by with
nothin'
And I waited till tonight to tell you gather 'round to get
more
And I waited so alone with nothin', you get by with
nothin'

[Sung over Chorus]

And I waited till tonight to tell you, gather 'round to get
it all
And I waited so alone with nothin, you get by with
nothin' at all
And I waited all alone to tell you gather 'round to get
more
And I waited till so alone with nothin', you get by with
nothin' at all
