

French Affair

"Wrong Side"

Visit "[Wrong Side](#)" on MotoLyrics.com

Got you on the wrong side of me
Went and had my mind made up so suddenly
And it's being hungry when you can't take the fall away
Got you on the phone guiltin' me
Thinkin' how you looked at me so eagerly
But it was some of them kids in the city
Ended up at home on empty with the windows down
Tryin' to say everything but knowin you
I'd hate to see you lookin' so down
Wish you weren't so tied to me but you are
Sooner than it happens to all that you are
Right on my way home
Still in my mind won't you give us a call?
Summer's so fine I don't need you at all
Right you so said
Yeah
Ended up at home on empty with the windows down
Every time I look at you
I see you just like lookin' through the windows
downtown
Ended up at home on empty with the windows down
Tryin to say everything but knowin you
Id hate to see you lookin so down
Got you on the wrong side of me
Went and had my mind made up so suddenly
And it's being hungry when you can't take the fall away
And it saw this willin to kill the rest of the day
I try to look at you that way it drives me hey oh ah
Ended up at home on empty with the windows down
Every time I look at you
I see you just like lookin through the windows
downtown
Ended up at home on empty with the windows down
Tryin to say everything but knowin you
Id hate to see you lookin so down
