What do I do now?
All the phone lines are down
And nobody is around
And the days is coming down

What do I do?
Thought I call and ask you
Or invite you over
For a little fun but you were gone
And the fundamental's gone

What you gave me?
All I can remember
Only thing I know
Is that this fear inside

Giving me one
All of the time
Call and I'm gone

Should be making some noise by now
And it's a time that we treasure man
And we be having a saw I know
And it's too easy to call our hands

Takin' in with the ones I know
And it's time to pack it in
Should be making some noise by now
And it's a time that we treasure man

When I wait around
For the underground
And it brings me down
To the show downtown

I'll try to gives us all a chance
And I'll try to find the good in the gone
Want someone, better late than never
We will find a good one, we all fail again

And get the sweet subside
Getting the feeling now

All of the time
Yelling at someone

Should be making some noise by now
And it's a time that we treasure man
And maybe having a saw I know
And it's too easy to call our hands

Taking in with the ones I know
And it's time to pack it in
Maybe having a saw I know
And it's too easy to call our hands

Should be making some noise by now
And it's a time that we treasure man
We've been having a saw I know
And it's too easy to call our hands

Maybe having a saw I know
And it's too easy to call our hands
