We were wondering what went wrong  
Was it time when I got turned off  
By those things you know  
By those things you know

Got tired of hanging on  
And trying to love one song  
On the radio, on the radio

And on and on  
Get up get off  
Come on come on  
As I lead I can say

And I gave up mine  
Had a made up mind  
As I lead I know

And you made up mind  
With your made up mind  
It's all that you know

Sunday night I'm there and walk it around  
Taking up the air an empty downtown  
When ahead and killed the time that I found  
Always in my head I'm hearing some sound

What we wouldn't give to never be bad  
Ever taking in and living underground  
Better be man and under some cloud  
Sunday night is fair and never so down

Ohh la la-la
