This concrete is too cold, to be walking on it  
Or else walking on it with no shoes on (no shoes on)  
Don't wanna struggle, oh no  
Don't want it to become a habit  
I've been living in the gutter with no shoes on  
Let me get up out of here  
Before I hurt somebody  
Or I have to hurt somebody  
Before I hurt somebody  
Or I have to hurt somebody  
Before I hurt somebody  
Or I have to hurt somebody  
My momma need a crib  
Son needs some jordans  
This some bull shit, cause I can't afford them  
Pairs listening  
And the band recording  
Trying to dodge the pen  
Hoping I survive the morning  
Shit is getting hot  
Man I'm talking scourging  
Watching bodies drop  
Trying to make a fortune  
Dancing with no top  
Trying to skip my fork and  
Wanna own the block  
Then you gotta put your work in  
Cause  
[Chorus:]  
This concrete is too cold, to be walking on it  
Or else walking on it with no shoes on (no shoes on)  
Don't wanna struggle, oh no  
Don't want it to become a habit  
I've been living in the gutter with no shoes on  
Let me get up out of here  
Before I hurt somebody  
Or I have to hurt somebody  
Before I hurt somebody  
Or I have to hurt somebody  
Before I hurt somebody  
Or I have to hurt somebody  
You got the biggest gun

I hope it's for protection  
How you never run  
You just count your blessings  
Beating down the drum  
Find me the connection  
To get up off the slum  
That's my only investment  
Throw you to the ground  
Book you for possession  
Now it's going down  
Now i teach them a lesson  
Crooked as a clown  
Wishing I could arrest him  
Guess they run the town  
From the streets to the correction  
So

[Chorus:]

This concrete is too cold, to be walking on it  
Or else walking on it with no shoes on (no shoes on)  
Don't wanna struggle, oh no  
Don't want it to become a habit  
I've been living in the gutter with no shoes on  
Let me get up out of here  
Before I hurt somebody  
Or I have to hurt somebody  
Before I hurt somebody  
Or I have to hurt somebody  
Before I hurt somebody  
Or I have to hurt somebody  
No way to dice that  
Toss it against the wall  
The way you like that  
That's what you're doing dog  
Gambling? what you like? street gambling  
Gambling? what you like? street gambling  
Gambling? what you like? street gambling

[Chorus:]

This concrete is too cold, to be walking on it  
Or else walking on it with no shoes on (no shoes on)  
Don't wanna struggle, oh no  
Don't want it to become a habit  
I've been living in the gutter with no shoes on  
Let me get up out of here  
Before I hurt somebody  
Or I have to hurt somebody  
Before I hurt somebody  
Or I have to hurt somebody  
Before I hurt somebody  
Or I have to hurt somebody
