How much more time before my country dies-How
many more
Tears must my children cry! How much more slander
must my
People take-The survival of our race is at stake!

Crooked politicians and their media lies-A race of
Dignity is what they despise! They're raping our nation
That was proud and free-Now like vultures they are
coming
For me!

America, America, what has become-A once proud
nation is
Turning into a slum! America, America, can you tell me
Why-Corruption keeps on growing while my people die!

I was left on the cross to die-They crucified my body
but

They couldn't steal my mind! A menace to society is
what
I was called-But they're scared of a man with a heart
and
Soul!

They said my actions would seal my fate-That's when
my
Love came and turned to hate! No more fools can
make me
Obey-I've smashed the shackles, now I'm breaking
away!

America, America, what has become-A once proud
nation is
Turning into a slum! America, America, can you tell me
Why-Corruption keeps on growing while my people die!
