I'm lookin' back, back in time  
To a place where the heavens shined  
It was the land of my fathers, the land of my kin  
This is the place that it all begins

Chorus:

I'm back in the fatherland  
Back, back, back back, back, back  
I'm back in the fatherland  
Back, back, back back, back, back

I think of all the beauty I've seen  
Snow capped peaks and forests so green  
From the acorns the mighty oaks grew  
Blood and soil made it all come true  
(Repeat Chorus)

Look to the Alps there lies the eagles nest  
Perched high above the mountain crest  
I think of the tales I've been told  
Of air so fresh yet so cold

(Repeat Chorus)

Every castle I see tells a story  
Tales of battles, blood, and glory  
Of the crusaders that fought and died  
To keep the flame burning alive

(Repeat Chorus)
