A communist invasion to force occupation
A runaway nation fighting to break free
Militant action against the red factions
We'll take the hammer and sickle to it's knees

Chorus:

FIGHT ON freedom is calling
FIGHT ON the shells keep falling
FIGHT ON you have to fight to be free
FIGHT ON!

A history of blood, now dragged through the mud

For trying to claim your own identity
For years you had fought the alien onslaughts
Never giving in to invading enemies

(Repeat Chorus)

Standing back to back to halt the attack
The renegade militia will take command
Storming like thunder with quickness they plunder
Driving the enemy from their land

(Repeat Chorus)
