We roll into the 21st century  
Trudging over the bones of the weak  
For global domination, a message to the masses  
That we don't turn the other cheek  
Hate and desire fuel our fire  
Your weakness makes our engines burn  
We won't let up with our aggression  
Until the masses learn

Chorus:

Hate train rolling on the rails of an insane world  
Hate train rolling a non-stop collision undeterred  
Hate train rolling leaving wreckage in our path  
We're bound for glory, hate train rolling

Built to forever last

We live by our laws, die by our ideals  
We're the masters of our destiny  
We're on the rails of a runaway train  
That won't stop until we're free  
All aboard! sound the whistle  
Do you think you can pass the test?  
When the heartbeat of America stops beating  
And goes into cardiac arrest!

(Repeat Chorus)

Hate train rolling!  
Hate train rolling!  
Hate train rolling!  
Hate train rolling!
