You, you're like a brother to me. Just like one of the
Family. In pride we stride, side by side. Like two true
Brothers we confide.

Through thick and thin we stood tall. Others crashed
Around us but we would never fall. You're like a brother
To me.

It's true, what they say about time. Makes true colors
Show or makes them step outta line. It's good to know
They'll watch your back. And I know you'll watch mine.

Through thick and thin we stood tall. Others crashed
Around us but we would never fall. You're like a brother
To me.

Brother I just want you to know. That if a gun was pulled
I'd rather take the blow. Than see you go down, by
blood
We're bound. Because you're like a brother to me.

Through thick and thin we stood tall. Others crashed
Around us but we would never fall. You're like a brother
To me.

Through thick and thin we stood tall. Others crashed
Around us but we would never fall. You're like a brother
To me.
