I look foward to the day
When they declare marshall law
And I hope it's coming quick
Cause I'm down to my final straw

Pre-Chorus:

There comes a time when one has to learn
Mess with fire, you're gonna get burned
Life is short, and I don't give a damn
Cause when I'm going out, I'm going out with a bang

Chorus:

Scorched earth policy, plunder & pillage
Hatred burns inside of me, plunder & pillage
I've got no time for debate, plunder & pillage

Fires will engulf your state, plunder & pillage

Tell me what will you do?
When your city is ablaze
You should have thought rationally
When you dealt with the crazed

(Repeat Pre-Chorus)

(Repeat Chorus)

You've ruined the cities
You've ruined the towns
In your own mudslide
I'm gonna see you drown

(Repeat Pre-Chorus)

(Repeat Chorus)
