I have been feeling below par
and I can not even find the green
I'm feeling under the weather
That is to say it's on top of
me. I don't feel good today
I can't help it anyway.
I can not help my emissions
even if maybe they're a social faux pas
gastronomical extradition's
I shouldn't have spent all my time in the bar.
Hakimashita, I've soiled myself again.

My stomachs subsiding it's about time
I'm thinking of returning to duty now
Hang on I'm sure that's such a
good idea I might return to the bowl,
I don't feel good today
I can't help it anyway
Hakimashita.

Language has never been much a
barrier when it applies to this
There's not many misunderstandings that
arise following a vomit kiss.
