Whatever you do you should get outta this town

I'm on an aeroplane, you're only fucken insane

What do you do? What do you see?

What do you want to be?

I've got a two inch screen mother fucker get out

Off the street and into the fight

I'm home again

Sing to the mountain

Mother fucker get out

Gonna shove your face

Against the human race

So just get outta my hair

Before I go fucken spare

Please go over there
