"Punch In The Face"

Middle class white boys trying hard to annoy
All we really needed is a ticket to ride
Fighting with no-one at all that's ok
We've got no balls
Someone needs to sort us out
And make benny cry

All we need is a punch in the face

Lary Emdur is OK compared to us

He makes the grade
Self-depreciation is important for some
We deserve a beating can someone teach a lesson
All that they'd be doing is just having some fun

All we need is a punch in the face

And they go bam ba ba bam etc...
