Well we live in a nation where Nike shoes and  
Pepsi cans are breeding like cancerous cells  
It's not hard to believe it and it's hard to ignore it when  
our governments get on so well, well well....

U.S.Anus

If you don't want to face it then you'll have to  
embrace it like the virus of that big golden sign.  
It's the great open market if we're good we'll get

rewarded with some lunch money and a chance  
to buy, we've got to buy or say good-bye.

U.S.Anus

When we go down, down, down, to that distinctive  
sound of the universe when ready to blow  
we can be safe in the knowledge of that flag saluting  
prosecution 'cause we'll almost be the first to go, the  
first to go

U.S.Anus
