When will I see you self-harming my friend?  
When will I see you in intensive care again?  
Desensitized I've seen all this before, don't want no  
more  
My self destructive friend  
When will I see you at the ICU again?  
When you gonna drink and smoke, drive home again  
When you gonna call the bouncer a fuckhead  
Never learn from one mistake you've done  
Never seems like fun, my stupid friend  
When you're out of it you're gonna fall under a bus  
I'm supposed to give a shit coz you are one of us  
In another car smash

Now you don't feel so flash  
the wreck that you're encased  
Burnt yourself cooking  
You were so good looking  
When you had a face
