As I look into your eyes
From this hazy stage tonight
Just know when I wrote this
I kept you in mind

And I know that you're crazy baby
Jealousy comes easily
When you're with a lunatic like me

As I try to write a song
The words just come out wrong
Can I find a line to describe just
What is going on in my heart, my only one
How did you wait too long?
It's coincidence that your heart hits
To the beat of all my favorite songs

And watching you sleep makes me smile
More than any move that I've ever seen
(Movie that I've ever seen)
And roll the credits baby it is just you and me

So now let's skip to the kissing scene
With all that take 2, take 3!
I can't get it right
I guess we'll try all night

As I try to write a song
The words just come out wrong
Can I find a line to describe
Just what is going on in my heart, my only one (Heart!)
How did you wait too long? (Did!)
It's coincidence that your heart hits
To the beat of all my favorite songs

(Here we go!)

As I try to write a song
It comes out wrong
Can I find a line to describe
Just what is going on

In my heart?
It's coincidence that your heart hits
To the beat of all my favorite songs
