What is Cool? (x4)

What is cool?
It's doing your own thing
Swinging your own swing

What is cool?
Its doing the right thing
Lovin' your own skin

And your clique
You've got the latest sneaks
Your crazy new techniques
They'll wanna last a week
Too much at stake
'Cause cool is hard to fake
So give yourself a break
It's ok to make mistakes

'Cause cool is just a game
Right here is where its at
Smooth like a lizard
Gonna lounge it, lounge it

Cool is a word
That everybody's heard
Cool is a colour
And I wanna wear it everywhere I go

You compliment my sneaks
I'll show it up for weeks
While hanging with my clique

What is cool? (x3)

Lovin' your own skin
Feelin' sweet

You've got the latest sneaks
Your crazy new techniques
They'll wanna last a week

Too much at stake
'Cause cool is hard to fake
So give yourself a break
It's ok to make mistakes

You know cool has an equation
More trickable than any situation
It's whatever rocks your foot over
Record, luxury, of loss
Until you come swinging to
A tingle will live you

What is cool? (x2)

What is cool anyway?
It don't matter what other people say
'Cause it's cool

(BB scats)

It's so cool
It's just cool
Cool, cool
It's so cool
Cool, It's just cool

What is cool? (x8)
