Please don't let me
Feel this alone, if you do
I'll never forget you

I swear to God that I can keep a secret
If you swear, you'll never forget that
All these words on the tip of my tongue
Are hard to find cause the tip of yours
Is on the tip of mine, on the tip of mine

Please don't let me
Feel this alone, if you do
I'll never forget you

And you know as well as I do
That I'm no poet
It's just, oh, well I adore you
And I just wanted you to know it

Pardon me while I trip all over my words
But it's just what you do to me
You make me nervous
And you do it, oh so gracefully

Please don't let me
Feel this alone, if you do
I'll never forget you

Please don't let her
Let her catch on
If you do, I'll never forget
I'll never forget you

Let's turn off both our phones
And hit the lights
Let's take off all our clothes
And shut the blinds and just
Lay here tonight

Let's turn off both our phones
And hit the lights (Hit the lights)

Let's take off all our clothes
And shut these blinds and just
(Take off our clothes)
Lay here

Kiss me goodbye
When your lips touch mine for the last time
Open your eyes and watch my heart break tonight
(My heart break tonight)

Kiss me goodbye
When your lips touch mine for the last time
Open your eyes and watch my heart break tonight

Watch me break
Watch me break

Kiss me goodbye
When your lips touch mine for the last time
Open your eyes and watch my heart break tonight

Kiss me goodbye
When your lips touch mine for the last time
Open your eyes and watch my heart for you

I'll never forget
I'll never forget you
