As I look into your eyes  
From this hazy stage tonight  
Just know when I wrote this  
I kept you in mind

And I know that you're crazy baby  
Jealousy comes easily  
When you're with a lunatic like me

As I try to write a song  
The words just come out wrong  
Can I find a line to describe just  
What is going on in my heart, my only one  
How did you wait too long?  
It's coincidence that your heart hits  
To the beat of all my favorite songs

And watching you sleep makes me smile  
More than any move that I've ever seen  
(Movie that I've ever seen)  
And roll the credits baby it is just you and me

So now let's skip to the kissing scene  
With all that take 2, take 3!  
I can't get it right  
I guess we'll try all night

As I try to write a song  
The words just come out wrong  
Can I find a line to describe  
Just what is going on in my heart, my only one (Heart! )  
How did you wait too long? (Did! )  
It's coincidence that your heart hits  
To the beat of all my favorite songs

(Here we go! )

As I try to write a song  
It comes out wrong  
Can I find a line to describe  
Just what is going on  
In my heart?

It's coincidence that your heart hits  
To the beat of all my favorite songs
