Me and the animal lover,
Never fall for each other;
But she'll wait for me to turn my back
Twist the knife and hit the sack,
Twist the knife and hit the sack.
Me and the animals friend
Spent years and tears on the mears
But she's friends of all for what it's worth
The lust just gets more down to earth
After all
After all~
She said,
Take off my clothes and drag me to the sea
She just wants someone who's free
How could that be me?
Take off my clothes and drag me to the sea
She just wants someone who's free
How could that be me?
Me at the age of four
Kissed the sky then broke the fuckin' floor
Well ok, I'll go along, but I don't have to like it
I'll go along but I don't have to like you
After all
After all~
She said
Take off my clothes and drag me to the sea
She just wants someone whos free
How could that be me
Take off my clothes and drag me to the sea
She just wants someone who's free
And how could that be me
How could that be me
