[Lyrics: Wappling]

I can see her now the smile upon her face
The shadows disappear as if they fear for their lives

You must follow me now - I will guide you on your way
I will follow your steps - Wherever you may go

Underneath a clouded sky we fly I'm so alive
Then I hear their voices once again they sing to me

Please don't go don't follow her voice
Inside your mind dwells the treasure you seek, that
only you can reach

We get nearer but where are we really going?
The emptiness covers my sight
I can feel it the darkness slowly growing
The presence of evil around

She's so beautiful her innocence and pride
As I stare into her darkblue eyes I'm slowly dying

She's a demon in disguise - Let the mirror tell you why
Do not enter the gate - The mirror speaks the truth

Underneath a clouded sky we fly I'm so alive
Then I hear their voices once again they sing to me

Please don't go don't follow her voice
Inside your mind dwells the treasure you seek, that
only you can reach

I can see it now the grin upon his face
The shadows closing up there's no way out I'm gonna
die

You must follow me now - I will guide you on your way
Do not enter the gate - The mirror speaks the truth

Underneath a clouded sky we fly I'm so alive

Then I hear their voices once again they sing to me

Welcome

This is where chaos begins

This is the Dark Side

One step and the madness reveals

Please don't go don't follow her voice

Inside your mind dwells the treasure you seek, that
only you can reach

Please don't go don't follow her voice

Inside your mind dwells the treasure you seek, that
only you can reach
