I felt it when the sun came up this morning
I knew that I could not wait another day
Darling, there is something I must tell you
A distant voice is calling me away

Until we find the bridge across forever
Until this grand illusion brings us home
You and I will always be together
>From this day on you'll never walk alone

You're a part of me, I'm a part of you
Wherever we may travel, whatever we go through
Whatever time may take away
It cannot change the way we feel today
So hold me close and say you feel it too
You're a part of me and I'm a part of you

I look at you, your whole life stands before you
I look at me and I'm running out of time
Time has brought us here to share these moments
To look for something we may never find

We can never know about tomorrow
But still we have to choose which way to go
You and I are standing at the crossroads
Darling, there is one thing you should know

CHORUS
