This misery that holds me under
Won't let me get away
One day you'll see this could be perfect
So I'll hold on

What?
Can feel it waking up inside of me now
It'd be so easy just to bring it to life
I always wanted for this to happen
April witch
Now you'll finally see that I'll always be the one

Is there a chance?
Don't get my hopes up
But it seems it's finally here
Could light break through the gray?
Can my wish be coming true?

What?
Can feel it waking up inside of me now
It'd be so easy just to bring it to life
I always wanted for this to happen
April witch
Now you'll finally see that I'll always be the one

Could this be real or is it all just in?
Could this be real or is it all just in my head?

I always wanted for this to happen
April witch
Now you'll finally see that I'll always be the one
