You sail away and I am drowning  
Slowly sinking with the pain  
Paralysed and dead with hunger  
For you and everything you bring  
Oh if you stay here with me  
I wont make you sad, and it wont be bad  
You say we shouldn't be together  
Oh if you stay here with me  
You say were done and it is over  
No need to argue anymore  
With trembling hands I dial your number  
In case I'll make you change your mind  
Oh if you stay here with me  
I wont make you sad, and it wont be bad  
You say we shouldn't be together  
Oh if you stay here with me  
I wont make you sad, and it wont be bad  
I knew it was too good to last  
Oh if you stay here with me  
The connection is gone the circuit is dead and  
Im hanging on by a thread  
I was just a fool to think that we could win - I am a  
Victim  
Tell me what's the use of this abuse of feelings never  
Meant to be?  
Oh if you stay here with me  
I wont make you sad, and it wont be bad  
You say we shouldn't be together  
Oh if you stay here with me  
I wont make you sad, no I wont be bad  
I knew it was too good to last  
Oh if you stay here with me...
