"Straight Thin Line"

If I was a straight thin line
If I was a straight thin line
Longed I for the curves and the rhythm
Envied I the flesh
If I let go of mine
If I became a straight thin line

Here's what Agnes said:
Hunger is a must
If I'd be satisfied
I'd lose my lust for life
Ultimately undefined
Move beyond the straight thin line

One thing in life so far
I wanted most of all it was to
Straighten out my bends and my curls
How to escape my shape
Become vibration

Agnes said to me:
I'll outthink my flesh
The key to all my work
Is in none of it
But in the absence
